

Blue Lime Labs is a company investing and developing early-stage start-up ideas to meet the market.

Our focus is into scalable business-to-business solutions that provide straight forward value to companies.

We already started working on 3 projects of international scope and plan to rapidly expand during the upcoming years.

Hence, as an employee at Blue Lime Labs you will be never bored with the same tedious tasks, as there is always an opportunity to rotate between projects and innovate on them.

## Looking for an internship?

Join PulseTip a world class start-up which is building a global solution for HR managers.

**PulseTip a part of Blue Lime Labs** provides an opportunity to kick-start a career with an internship **within Human Resources**.

**If you believe** that managers should take care of their employees by helping them feel appreciated, satisfied, and engaged daily.

**Come join us, because we are doing exactly that.**

We are looking for diverse candidates that would be interested in:

- Analysing global HR trends in employee engagement.
- Conducting market research.
- Testing products and services.
- Making product descriptions and tutorials.
- Communicating and searching for prospect clients.
- Delivering other daily ad-hoc business tasks.

We offer a great environment to learn, broaden your network, gain hands-on experience and show your talent.

You will not be expected to bring coffee or stand at the printer. We will constantly challenge you to:

- Learn more and work on your own with team supervision.
- Be proactive and actively engage in all business activities.

We commit to transfer our knowledge and help you in gaining as much experience as you will be willing to get.

Candidates with an HR background are welcome to apply. Successful candidates can be offered full-time positions both at the accelerator or at a start-up.
